THE HOME OF BETTING

Gambling is an exciting form of entertainment which, when taking place in the social environment of a licensed betting office, should be harmless fun and entertainment.

For the great majority of people who use betting offices, gambling is an enjoyable pursuit. For a very small number however, there may be problems and gambling can cease to be fun.

Gambling may be a problem for people who:

- Continue to gamble until all their money is gone.
- Borrow money to continue gambling.
- Due to their gambling, neglect the welfare of themselves and their family.
- Feel unable to take breaks when gambling for prolonged periods of time.

If you think that you may have a gambling problem, or someone close to you is experiencing a problem, assistance and support is available. Call the National Gambling Helpline operated by Gamcare, the leading provider of information, advice and practical help for anyone affected by problem gambling.
